

## CERTIFICATE OF COMPLETION

# Suchismit Mahapatra

For graduating from

Designing State of the Art **NOV.22 COHORT**  
Recommender Systems

16th of November 2022

This cohort-based course was a three-week, intensive curriculum that combined teaching from research and industry knowledge. Participants covered topics that included ranking and hybrid approaches to recommendation, the explore/exploit dilemma in recommender systems, ethics and fairness when designing a recommender system, and designed an end-to-end recommender system infrastructure.
